

PAINTABLE WATERPROOF SMALL SKIRTING

Technical data sheet
English

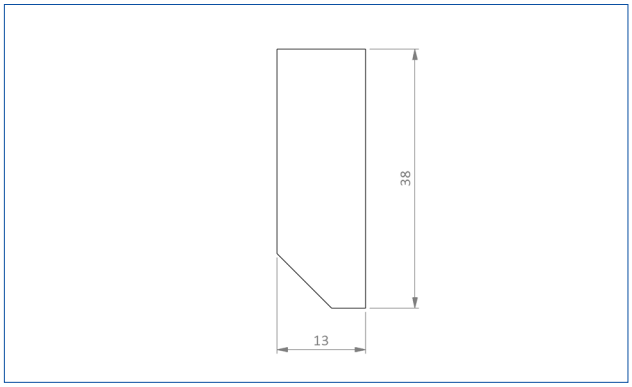

QUICK·STEP®
FLOOR DESIGNERS

General information

Small, paintable, 100%-recyclable polystyrene skirting that can be left white or grab a can and paint your skirtings in a colour that suits your style. Use the Foamstrip and Hydrokit for a watertight finish in wet areas. Easy to install with One4All Glue.

Contents	Composition	Colour
Paintable waterproof skirting - small	Polystyrene	White (between RAL 9010 and RAL 9016)

Order code	Dimensions
QSHSK38PAINT	2400 x 13 x 38 mm

Applicable for:

All Quick-Step Laminate and Vinyl floors.

The floor must be able to expand and contract on all sides. This is why an expansion gap must be provided on all sides of the floor, around pipes, thresholds and under door frames. The exact expansion gap size depends on the floor type. Consult the installation instructions of your Quick-Step floor to know the required size of the expansion gap. To finish off this gap, we offer a wide range of skirting and profiles.

Features

Quick-Step accessories are specifically developed for Quick-Step floors.

Multi-purpose surface

The surface can be left white or painted.

Waterproof

Use the Foamstrip and Hydrokit for a watertight finish in wet areas.

Easy installation with Quick-Step One4All glue

Simply glue the skirting to the wall.

Installation

The skirting can be installed in the following way:

1. If you choose to paint the skirting, it is best to sand and prime the skirting to ensure the best adhesion. First always verify if the paint bonds well. Preferably, use a water-based lacquer paint.
2. Simply glue the skirting to the wall with the Quick-Step One4All glue.
3. You can paint the skirting in the colour of your choice or you can leave it as a white skirting.
